

December 2011 Half-Price Specials

York Chemical Technologies Inc. is offering to its customers at half-price during December, the following four products: **Odorwise**, **Powerwise**, **Lift Off** and **The Glove**.

Odorwise, a biological product along with its sister product **Naturalsolve** (the same chemical formula as **Odorwise** without a fragrance) are both used to remove unpleasant odors. The bacteria in these products will continue working providing what you are treating contains moisture. These products are ideal for removing the unpleasant odors produced by pets and wild animals. When a refrigerator or freezer are accidentally unplugged and the food contained in them becomes contaminated, the unpleasant odor produced by the spoiled food permeates their linings. This cannot be removed without the aid of a biological product. This is also the ideal product for removing unpleasant odors involved in a trauma scene. **Odorwise** and **Naturalsolve** can be applied to a basement floor after a sewer backup, particularly if the effluent has been left over a prolonged period of time.

Powerwise has some unique uses such as removing hair spray from mirrors. Most restoration companies use it as a medium-duty degreaser diluted up to 40 to 1. It is excellent for cleaning the following substances: drywall, painted kitchen cupboards, linoleum, vinyl flooring, VCR's and computer exteriors. It is the best product for cleaning flocculent or embossed wallpaper.

Lift Off is a pleasant smelling, non-acid, none-alkaline, non-toxic; stain remover used primarily on upholstery and fabrics such as drapes but could be used on carpeting. The enzymes in this product give it extra deodorizing power. On easy chairs where the head comes in contact, you need this product to remove the oily residue.

The Glove is the answer for technicians who suffer from heat rashes caused by latex gloves. **The Glove** allows your hands to breathe while you are working. One of the ingredients in **The glove** is Lanolin which helps to heal cuts and abrasions. It also has a UV rating of 15.

During December, **Odorwise** and **Naturalsolve** can be purchased in cases of (4 x 4) 1 gal US or 4 litre Can jugs for \$152.50 per case or in 5 gal US or 20 litre Can pails for \$172.50. per pail.

Powerwise is available in cases of (4 x 4) 1gal US or 4 litre jugs for \$119.50 per case or in 5 gal US or 20 litre Can pails for \$135.00 per pail.

Lift Off is packed in cases of 12 quarts and is priced at \$124.50 per case.

The Glove also comes in cases of 12 and during December is available at \$107.50 per case.

Do your Christmas shopping early.
