

**PRODUCT GUIDE FOR RESTORATION INDUSTRY**  
**“OUR PRODUCTS MAKE A DIFFERENCE”**

<b>PRODUCT NAME</b>	<b>PRODUCT DESCRIPTION</b>	<b>PRODUCT USE</b>	<b>APPLICATIONS &amp; DILUTIONS</b>
<b>Airwise</b>	Highly dilutable odor counteractant, with a pot pourri fragrance.	The small light particles in Airwise make it ideal for use in ULV fogging machines. Airwise is used to counteract the odors caused from: smoke, sewer back-ups, protein, skunks and dead bodies, as well as any other offensive odors.	Dilute up to 50 to 1 depending on the severity of the conditions.
<b>Alumaclean</b>	A highly alkaline water based cleaner for removing the oxidation and impurities from Aluminum.	If you are refurbishing an apartment after a fire, you will find many aluminum windows, doors and elevator tracks that require treatment. It is used to treat metal surfaces before they are painted. After you apply Alumaclean with a trigger spray bottle, you will see it foam as it micro etches the surface of the object you are cleaning.	Alumaclean should not be used on anodized aluminum (use Metalico) normally used in a 5 to 1 dilution ratio.
<b>Baby Powder</b>	A dry odor counteractant in an aerosol.	Eliminates odors in the airflow caused from: protein, soot, smoke, mildew, skunks, and dead bodies without staining the objects on which it is sprayed. This can be used in a metered dispenser. Many restoration technicians like to use this product in pack out containers.	Metered dispensers can be programmed for time periods and the number of sprays per time period.
<b>Blast Out Spotter</b>	A solvent based spot remover with an inverted nozzle in an aerosol.	Blast Out Spotter can be applied direct to carpets and upholstery and is effective for removing most types of soils. This is one of a few products capable of removing soil filtration lines.	Blast Out Spotter should be applied directly from the aerosol on to the soiled area. Agitate with a bone scraper or spoon handle before blotting.
<b>Burn Out</b>	A non-acid cream cleanser with a mild Abrasive additive. Available in quarts with a handle toggle dispenser.	Burn Out is the second step of a two part application for removing yellowing from appliances. It is also effective in removing stains from: bathtubs, toilets, urinals, bidets, stainless steel sinks, vanity counter tops, taps, shower heads, computer cases, printers and monitors.	Apply full strength on the soiled area and agitate with a mild abrasive pad.
<b>Citrus Crème</b>	A dry odor counteractant in an aerosol.	Eliminates odors in the airflow caused from: protein, soot, smoke, mildew, skunks, and dead bodies without staining the objects on which it is sprayed. This can be used in a metered dispenser. Many restoration technicians like to use this product in pack out containers.	Metered dispensers can be programmed for time periods and the number of sprays per time period.

PRODUCT NAME	PRODUCT DESCRIPTION	PRODUCT USE	APPLICATIONS & DILUTIONS
Citrus Crunch	A heavy duty wet odor counteractant for the airflow, packaged in an industrial sized aerosol.	A pleasant freshly squeezed orange fragrance neutralizes odors in the airflow from: sewer backups, smoke, dead bodies, protein, skunks and odors in hard to reach areas.	Spray directly in the airflow where odors occur. This is a wet spray. Avoid spraying over articles that are prone to staining.
Citruswise	A foaming citrus cleanser in an aerosol. The D'Limonene in this product may cause damage to Styrene.	Citruswise is ideal for a variety of surfaces including: ceramic tile, porcelain, stainless steel, vinyl, Formica, aluminum. It is particularly good in removing the soot from white cabinets and restoring their original color. It can also be used as heavy duty degreaser for removing grease, oils, inks, carbons, dyes, latex, and tape and adhesive residues.	Apply directly from the aerosol can onto the soiling. After a few seconds, wipe the soiling with a damp cloth or sponge. When used as a degreaser the soiling may have to be agitated with a nylon bristle brush before wiping with a damp cloth.
CranCinnamon	A dry odor counteractant in an aerosol.	Eliminates odors in the airflow caused from protein soot, smoke mildew skunks and dead bodies without staining the objects on which it is sprayed. This can be used in a metered dispenser. Many restoration technicians like to use this product in pack out containers.	Metered dispensers can be programmed for time periods and the number of sprays per time period.
Cretewise	A penetrating acidic liquid.	Cretewise penetrates the matrix of cement removing unwanted furnace oil from basement floors It can also be used outdoors to remove oil and rust on concrete driveways and interlocking stone.	When used on cement floors it should be used in a 5:1 ratio and left to stand for 5 minutes before agitating with a nylon bristle brush. Always finish by rinsing soiled area.
Dreamsicle	A heavy duty wet odor counteractant for the airflow, packaged in an industrial sized aerosol.	A pleasant freshly squeezed orange fragrance neutralizes odors in the airflow from sewer backups, smoke, dead bodies, protein, skunks, and odors in hard to reach areas.	Spray directly in the airflow where odors occur. This is a wet spray. Avoid spraying over articles that are prone to staining.

PRODUCT NAME	PRODUCT DESCRIPTION	PRODUCT USE	APPLICATIONS & DILUTIONS
Drylube	A high quality dry lubricant in an aerosol, fortified with ingredients similar to Teflon.	While this product is sprayed on wet, it dries within a minute. Since it is dry and not messy like other lubricants, it is ideal for treating windows and door tracks after a fire. It is also used to lubricate cushions that have been removed from their cover, making them easy to return. It can also be used on: hinges, locks, dampers and vents.	Use full strength on area requiring lubrication.
Electro	A heavy duty electronic degreaser with quick evaporation in an aerosol.	This product was designed to remove grease and soot from: electric motors, electro mechanical devices, electrical contacts, rheostats, switches, circuit breakers, washing machine motors, furnace motors, refrigerator motors and in general any electronic equipment that needs cleaning systems, even diluted in a ratio of 100 to 1.	Spray full strength on the electronic parts that need cleaning.
Extracto	A water-based highly dilutable, non-flammable, quick drying, extraction liquid containing bacteria.	After dilution, Extracto has an almost neutral pH and this avoids the browning in carpets caused from highly alkaline products. This may be dumped into sewer systems in municipalities that prohibit the dumping of highly alkaline products. The optical brighteners in Extracto help to make old carpets look like new. Extracto may also be used full strength as a pretreatment spotter.	Dilute up to 100 to 1, however you may use a lesser dilution with severe cleaning conditions. Use full strength as a pre-spotter.
Firewash	A highly dilutable alkaline soot and odor neutralizer.	This is designed for use as an economical wall washer. It can also be used as the initial treatment for the removal of soot from furniture.	Applied with a trigger spray bottle or porta sprayer. Light cleaning dilute 20 to 1, medium cleaning, dilute 10 to 1, heavy cleaning, dilute 5 to 1.
Firewash Customer Kit	This consists of 60, 1 gallon plastic jugs with customer designed labels and a proportioner.	The customer kit was designed to reduce the costs by recycling the jugs and labels. By shipping the product in a concentrate you also reduce transportation costs. The custom-designed labels on each jug enhance the image of the restoration company in the eyes of its customers and adjusters.	
Floorflex	A water-based micro emulsion, formulated to clean and maintain rubber composite flooring.	Many elevators and stair landings are covered with rubber composite flooring whose trade name is Mondo. Arenas, YMCAs, exercise facilities, and tracks all have various types of rubber composite floors that require a special cleaner and conditioner. Tufflex and Ramflex are the two most common trade names of products used in recreational facilities.	Floorflex is applied with a mop and bucket. Dilute 4 to 1 for initial application and 20 to 1 for subsequent applications.

PRODUCT NAME	PRODUCT DESCRIPTION	PRODUCT USE	APPLICATIONS & DILUTIONS
Fogger in a Can	An odor counteractant that can be used as a fogger in an aerosol.	Provides immediate relief from all nauseas odors. Unique operating feature. The technician's friend when foul odors make for difficult working conditions.	A release nozzle that can be switched on to operate automatically or can be used manually to provide intermittent sprays.
Go Go Gum Vandalism Eraser	A heavy duty solvent for graffiti removal from hard porous surfaces.	Ideal for removing graffiti from: concrete surfaces, cinder blocks, clay bricks, mortar, and precast panels. Works best in temperatures over 75 degrees F. Apply with a squirt bottle or paint brush to avoid fumes.	Apply full strength with a squirt bottle or paint brush.
Gone	A highly specialized vandalism mark remover in an aerosol.	Gone was specifically formulated for the removal of graffiti from concrete clay bricks, mortar, cinder blocks, and precast panels. Do not use on painted signs as it will remove the paint along with the graffiti.	Spray directly on the graffiti or soiling you want removed.
Grimebuster	A heavy duty alkaline degreaser, with deep penetrating surfactants.	When intense heat makes it difficult to remove soot from unfinished wood in drawers, tops of dressers and kitchen cabinets, then Grimebuster is the only product that will provide you with cleaning satisfaction. This superior cleaning product, when mixed in a ratio of 10 oz. to 5 gal of water, will produce a bath that will remove the odor caused by fires and other contaminants in Tupper Ware.	May be applied with a trigger spray bottle in a dilution ratio of up to 5 to 1 depending on the severity of the conditions. Agitate the soiled area with a nylon bristle brush or an abrasive pad.
Krystal Kleer	A highly concentrated glass cleaner that doesn't contain water or ammonia.	This highly dilutable glass cleaner was formulated to be used with our Krystal Kleer Customer Kit. This easy to use product will leave all glass streak free and is bound to save you money. There is no ammonia in Krystal Kleer to react with silver nitrate found on the back of mirrors.	Apply directly on glass with a trigger spray bottle or porta sprayer. Dilute up to 50 to 1 depending on severity of the conditions.
Krystal Kleer Customer Kit	This consists of 60, 1 gallon plastic jugs with customer designed labels and a proportioner.	There are considerable savings from recycling the plastic jugs. It also saves on transportation costs as it allows us to ship highly concentrated products. A product bearing our customer's own label enhances their image with their own customers	

PRODUCT NAME	PRODUCT DESCRIPTION	PRODUCT USE	APPLICATIONS & DILUTIONS
Lift Off	A pleasant white, non-acid, non-alkaline, non-toxic, odor counteractant stain remover for carpets, upholstery and drapes.	Its natural fragrance makes it pleasant to use. It is ideal for removing the stains caused from: urine, food, vomit, blood, grass, coffee, juice, grease, mustard, ketchup, iodine, hot sauce, body fluids and much more. On easy chairs you will find body oil buildup where heads rest on the back and arms on the armrests. The enzymes in this product give it extra deodorizing power.	Spray directly on area to be cleaned. Agitate with a bone scraper or facsimile until the bonds of the soiling are broken. Blot with a clean absorbent cloth.
Mango Mania	A dry odor counteractant in an aerosol.	Mango Mania comes with a universal nozzle, designed for use in a metered dispenser. Eliminates odors in the airflow from: protein, soot, smoke, skunks, dead bodies and mildew. Ideal for use in pack out cartons.	Spray direct into air flow, either by hand or with a metered dispenser.
Metallico	Metal polish/protector in an aerosol.	Metallico removes the oxidization from the following metals: brass, copper, silver, gold, chrome, bronze, stainless steel, nickel and even painted surfaces that have oxidized. This can be used for the restoration of jewelry and silverware. This is also the perfect product for restoring anodized aluminum surfaces.	Apply directly on the surface to be cleaned or spray on a clean white cloth and apply. The more you rub the surface, the greater the luster you will produce.
Naturalsolve	Liquid biological product for removing odors with little or no fragrance.	Sister product to Odorwise, the only difference being its lack of fragrance. Used after a sewer backup to remove the effluent that penetrates the cement and other building materials. It can also be used to remove pet odors from carpets. Naturalsolve is used to remove the musty smell in carpets after a clean water flood. This is also used to remove dead body, urine and protein odors. When power failures occur, odor problems develop in refrigerators and freezers that permeate the plastic liners. Naturalsolve and Odorwise are the only two products that can eliminate these odors.	Apply with a trigger spray bottle. When treating pet odors on carpets and other fabrics, mix it half and half with warm soapy (not anti-bacterial) water and soak a towel in the mixture and use it to cover the contaminated area.
Neutral Scent	A water-based odor counteractant with a pleasant baby powder fragrance.	Neutral Scent was specifically formulated for use in an ULV mister. This product was developed for use by people who do not like strong fragrances.	Mix Neutral Scent 3 oz. to 1 gallon of water for use in an ULV machine.

PRODUCT NAME	PRODUCT DESCRIPTION	PRODUCT USE	APPLICATIONS & DILUTIONS
Neutra-cide	EPA registered, neutral pH, disinfectant/cleaner.	Highly dilutable cleaner/disinfectant, detergent, fungicide, deodorizer and virucide, designed for use with sewer back-ups and trauma scenes.	Dilute 128 to 1. Maybe applied with trigger spray bottle, porta sprayer, mop bucket or ideally with a foam gun.
Odorwise	Liquid biological product with a pleasant green apple fragrance.	Odorwise like all our other biological products has the highest bacteria spore count of any product available in North America. It also has the greatest variety of enzyme production. This is a sister product to Naturalsolve with all the same uses. After effluent from a sewer back-up has remained on a basement floor for a long period of time it will permeate into the matrix of the cement. To avoid call backs, under these circumstances, the floor needs to be treated with a biological product (either Naturalsolve or Odorwise).	Apply with a trigger spray bottle. Refer to Naturalsolve for further information.
Oven Magic Aerosol	Oven and grill cleaner in an aerosol with a pleasant lemon fragrance.	Unlike other generic oven cleaners, this product does not have the same harsh fumes. This highly alkaline product does a superior job in removing unwanted soiling and baked on grease in ovens.	For best results, the oven should be warm (not hot) before spraying on Oven Magic. Allow it to stand for 10 minutes before agitating the surface with a scrub pad. Rinse thoroughly with potable water.
Porcelainwise	Mildly acidic solution for cleaning porcelain and like substances.	With 90% of stove tops made from porcelain, this is a good place to start. This will do a special job of cleaning on bath tubs where the finish has been removed. It can also be used on stainless steel sinks, enamel, metal ovens, ceramics, cookware chrome, aluminum, fiberglass, pots and pans and calcium buildup on faucets.	Use full strength and apply with a trigger spray bottle or porta sprayer.

<b>PRODUCT NAME</b>	<b>PRODUCT DESCRIPTION</b>	<b>PRODUCT USE</b>	<b>APPLICATIONS &amp; DILUTIONS</b>
Powerwise	A water based degreaser with ingredients that act like solvents, giving it extra cleaning power.	Powerwise can be used for restoring drywall, kitchen cupboards, counter tops, linoleum, vinyl flooring, VCR's, and computer exteriors. Ideal for the removal of soot from cinder blocks	Depending on the surface being cleaned Powerwise may be applied with a trigger spray bottle, a mop and bucket or a damp cloth.
Satin Finish	A white milky emulsion with a pleasant citrus fragrance. Contains silicone polymers that provide a special finish when polished that also resist finger prints.	Satin Finish is a versatile product used to restore many different surfaces. it is used to remove soot from finished wood surfaces. it is ideal for cleaning and restoring: leather sofas and vinyl golf bags. It is effective in cleaning golf carts, plastic sewing machine covers, rubber wheels, and lawn mower seats. It can be used to renovate hockey gloves, baseball gbvcs, footballs and basketballs.	Apply full strength using a trigger spray bottle on the surface to be cleaned. Rub with a clean white loth. Additional rubbing produces a lustrous shine on any item.
The Glove	An invisible skin barrier containing lanolin.	This product is sprayed on to the hands and other body parts as a foam and rubbed until it disappears. The Glove eliminates the need for technicians to wear latex gloves, which cause heat rashes and other irritations for some people. After an application of The Glove you may paint or use harsh chemicals without fear of doing damage to your skin. Women especially like it as it leaves the hands soft as well as clean. It also has a sun block rating of 15.	Spray the Glove directly on the parts of the body you wish to protect and then rub it till it disappears. If your hands are exposed to a number of harsh chemicals for a protracted period you may need a second application.
Thermal 100	A citrus based product designed exclusively for thermal fogging.	This product has a pleasant citrus odor and is ideal for penetrating the pores of all building materials.	Use full strength.

<b>PRODUCT NAME</b>	<b>PRODUCT DESCRIPTION</b>	<b>PRODUCT USE</b>	<b>APPLICATIONS &amp; DILUTIONS</b>
Tilewise	A mildly acidic tile & grout cleaner.	Tilewise is the only product that cleans the ceramic tile and grout at the same time. This deep penetrating product makes ceramic tile and grout look like new.	Apply with a trigger spray bottle and let stand for 8 minutes. Agitate with a nylon bristle brush and rinse with clean water. Dilute 8 to 1.
Ultra 5	A lubricant and demoisurizer in an aerosol. Ultra 5 is non flammable.	Ultra 5 performs the following five functions in a superior fashion; demoisurizing, penetrating, lubricating, rust inhibiting, and clean up of rust on metal. After a sewer backup, all electrical equipment and outlets need demoisurizing including; furnace motors, refrigerator motors, washing machine motors. After a fire, electrical fixtures and equipment become saturated with water and need demoisurizing as well as protection from flash rusting. Power tools, lawn mowers, barbeques, and garden equipment are all candidates for treatment by Ultra 5. It is ideal for spraying into hard to get at areas, such as the interior of clocks. Ultra 5 is also used to remove soot and grime from printed circuit boards.	Spray directly on the areas that need remediation. Each Ultra 5 aerosol can, has a plastic extension tube attached to it by an elastic band and the tube fits into the nozzle to help you reach those hard to get at areas.
Ultra Odor Neutralizer	A dry odor counteractant in an aerosol with a slight vanilla fragrance.	Eliminates odors in the airflow caused from; protein, soot, smoke, skunks, dead bodies and mildew, staining the objects on which it is sprayed. This can be used in a metered dispenser.	Metered dispensers can be programmed for time periods and the number of sprays per time period.
